"Infectious Diseases Update for  
Dentistry  
Dr Nicholas Bennett

University of Connecticut Health Center, Farmington, CT  
Onyuike Dining Room

**The Connecticut Society of Pediatric Dentistry proudly presents:**

**Dr. Nicholas Bennett MA(Cantab), MBBChir, PhD, FAAP**

Dr. Bennett is the co-director of the Antimicrobial Stewardship Program at Connecticut Children's Medical Center, where he is tasked with improving the usage of antibiotics and other antimicrobial drugs. Dr. Bennett attended medical school in Cambridge, England, where he specialized in viral and genetic pathology. He undertook a PhD in the molecular biology of HIV viral packaging, specifically looking at RNA/protein interactions. Dr. Bennett was twice awarded the Gold Foundation award for Humanism and Excellence in Teaching and voted by the student body into the Alpha Omega Alpha Medical Honors Society.. Dr. Bennett has developed medical education curricula in patient-centered care and communication skills and the effective use of antibiotics. In 2012, he received the Faculty Award for Excellence in Teaching at Connecticut Children's Medical Center.

The University of Connecticut Health Center is conveniently located at 263 Farmington Avenue, exit 39 off of I-84 in Farmington, CT. For more information regarding the locale, please visit the University of Connecticut Health Center website at [www.uhc.edu](http://www.uhc.edu).
